

CCAMS Measurement School
February 19th and 20th, 2013
Corpus Christi Omni Marina Hotel

The CCAMS Measurement school committee has been working hard to put together another great school for you in February. The class schedule is complete and is attached below. There will be approximately 60 lecture and hands-on classes at the school. The topics will include fundamental information on liquid and gas measurement, as well as more advanced topics on measurement, product quality, sampling, troubleshooting etc.

CCAMS Has New Website

The CCAMS has a new website at www.CCAMS.info. **Steve Whitman** of **Coastal Flow Measurement** offered to provide the CCAMS with a website, and populate it with information about our school and other activities. This was a very generous gesture on his part. Steve will be instructing several classes at the school and will participate in a panel discussion on Field Experience with Coriolis meters. Several other classes will be presented by others from Coastal Flow. We would like to thank Steve for his generosity in providing us with the new website. We hope to be adding new information as time allows.

Hotel Information

Below is the hotel information. Please contact the hotel to reserve a room. The CCAMS rate will be good until February 4th, so be sure to reserve your room prior to that date.

Omni Marina Hotel
707 N Shoreline Drive
Corpus Christi, TX 78401

Online Registration Open

The online registration is now open and available for everyone to register. This is new this year, and should be a great benefit to those of us who have to keep up with who has registered and whether or not they have paid. The online registration allows the student to pay via PayPal or send a check to our post office box if they prefer. **Click on the link below to register.**

[Online Student Registration](#)

When registering please note whether you are a student, exhibitor or instructor.

When paying through PayPal you will receive a receipt from PayPal with the dollar amount. This should be retained for your credit card records.

Checks may be mailed to: **CCAMS**
 PO Box 4650
 Corpus Christi, TX 78469

2013 School Class Schedule

Attached is the final schedule for the school to be held in February. We have a wide array of classes to offer first-time students as well as seasoned measurement personnel.

Many of our instructors are the top in their field. We also have many instructors from various manufacturers who can explain their products that can help all of us perform measurement to the high standards that are required in this industry.

As you can imagine, it is difficult to make a schedule that provides everyone the class they need at the time they need it. We've tried to make it so there is something for everyone during each hour. We hope there are not changes to the times of any of the classes, but it is possible some class may be moved due to unknown reasons at this time.

Golf Outing

The CCAMS School Committee has put together a golf outing for anyone interested in playing golf at the Arnold Palmer designed course in Port Aransas on Monday February 18th. The Newport Dunes Golf Course is a fantastic test of golf, and one of the nicest courses in South Texas. It can be extremely challenging to players of all calibers so bring lots of golf balls.

I have reserved a block of tee times from 11:30-12:30 on the Monday before the school. The golf course can rent clubs to anyone needing them. This is not a tournament but just an outing for anyone that feels like playing a nice course with your colleagues.

For more information on the course go to: [Newport Dunes Golf Course](#)

Please contact Jim Lee for more information.
